Projects

Face Detection AI App   Demo Link   Github Link
PERN Stack (PostgreSQL, Express.js, React, Node.js) application that uses Clarifai API AI face-detection. Users can create and sign into their account to submit images for the AI to detect faces present on the image. The SQL database also keeps track of successful submissions.
          Front End: HTML5 · CSS3 · JavaScript · React · Styled-Components
          Back End: Node.js · Express.js · PostgreSQL

Image Gallery App   Demo Link   Github Link
An in-development React app image gallery that uses a Firebase Firestore database for image storage. Allows users to add photos, delete photos, and view photos with an interactive modal.
          Front End: HTML5 · CSS3 · JavaScript · React · Styled-Components
          Back End: Firebase Firestore

Dynamic Search Bar App   Demo Link   Github Link
React app that allows users to dynamically search a hash API for the names of randomly generated robots.
          Front End: HTML5 · CSS3 · JavaScript · React · Styled-Components
